

Environmental Public Health Laboratory Fellowship Announcement

Association of Public Health Laboratories (APHL) is offering an Environmental Public Health Fellowship opportunity, to be hosted at the Rhode Island State Health Laboratory in Providence, RI. The goal of the fellowship is to provide specialized training for a qualified post-graduate level fellow and for the fellow to participate in a research project involving clinical testing for environmental exposures (biomonitoring). The fellowship duration will be one year, with the possibility of extension to a second year, subject to approval by APHL.

Interested candidates should possess the following qualifications:

- Ph.D. or MS in Chemistry, Biochemistry or Environmental Health with an A average in the chemistry courses.
- Interest in environmental health research
- Experience with mass spectrometry and chromatography, especially HPLC
- Experience with analysis of trace chemical contaminants in clinical specimens
- US citizenship is required

Compensation and benefits:

(http://www.aphl.org/profdev/Documents/EH_Fellowship_app_08.doc)

- A stipend, to be disbursed on a biweekly basis provided by APHL. Current annual rates are \$35,866 for fellows with a master's degree; and \$44,140 for fellows with a doctoral degree.
- Individual (single) major medical dental and vision insurance.
- Professional development funds for training or to attend conferences.
- Funds to travel to the host laboratory. Funds for relocation are not provided.

To apply, please submit a resume and a letter of interest to: Ewa King, Ph.D., State Health Laboratory, Rhode Island Department of Health, 50 Orms Street, Providence, RI 02904. Questions regarding the fellowship can be directed to Ewa.King@health.ri.gov. Position open until filled.
